# BetonSports.com signs two year exclusive agreement with IQ-Ludorum for full suite of wagering software

*07-29-2003*

IQ-L to supply Sportstech sportsbook, Racing, Download and Java Casinos and Progressive Games Software for international BetonSports.com, multi-site deployment

London, UK – July 28th, 2003

IQ-Ludorum plc, a leading provider of wagering software solutions, is delighted to announce the signature of a two year software supply agreement with BetonSports.com, one of the largest offshore sportsbooks in the world.

Under the agreement, IQ-Ludorum will supply its state-of-the-art IQ-Sportstech call-center and Internet sportsbook software across all of BetonSports.com wagering operations. Key to the decision was Sportstech's proven ability over the past two years to provide industry leading functionality and performance to manage the huge volumes of wagering transactions handled by BetonSports.com. In addition, the call-center and internet based sportsbook solution will be deployed across multiple locations and multiple countries to provide unparalleled degrees of system resilience within the off shore wagering industry.

Integrated with Sportstech, IQ-Ludorum will supply its world class Java and download IQ-Casino software to be deployed on the family of BetonSports.com casinos. This includes the Progressives games engine which will enable the growth of huge progressive jackpots across all of these casinos.

EXHIBIT
tabbies
N

The agreement also includes IQ-Ludorum's industry benchmark IQ-Racing software, which, driven by a live line feed, offers punters hundreds of thoroughbred, harness and greyhound racing options every day.

This suite of IQ-Ludorum software has the added benefit of being fully integrated, allowing each player at BetonSports.com to wager on anything, from NFL, horse racing and golf to blackjack, progressive slots and multi-hand video poker, from a single wagering account. This single account convenience for the player is perhaps the single most important advantage of a deployment of the full suite of IQ-Ludorum products.

“We have worked with IQ-Ludorum for many years and this new contract re-affirms our belief that IQ-L's software and its high level of integration and reliability is the only choice for very high volume operations like BetonSports.com to service our client base. Further, the continuous improvement of IQ-L products in terms of performance and features, as well as the degree of telephone and on-site support provided by IQ-L, has allowed us to plan our growth over the next 24 months around this supply agreement.”

David Carruthers, CEO – BetonSports.com

“We are delighted to have signed this agreement with BetonSports.com. They are an acknowledged leader in the off-shore gaming industry and we see this contract as testament to the reliability and scalability of our product suite to meet their rapidly increasing transaction volume needs. We are excited about the prospect of enhancing our product suite to ensure that BetonSports.com continue to lead the off shore industry in new betting products, services and growth.”

Roger Stone, CEO – IQ-Ludorum plc

For more information contact:
John Roberts - General Manager, Marketing Tel: +44 20 7932 2451
IQ- Ludorum plc Email: mailto:marketing@iq-l.com

About the companies:

IQ-Ludorum plc is a leader in the E-Gaming Industry, providing a unique, integrated architecture for the operation of best-in-class gaming services across all digital media. A publicly held company with offices in the UK, North America, and throughout the Caribbean, IQ-Ludorum trades on the London Stock Exchange's Alternative Investment Market (AIM) under the symbol IQL.L. Website: http://www.iq-l.com

BetonSports.com, a member of the BoS Gaming Group, is licensed in two continents to offer wagering on the widest range of sports competitions and online casino games. The group has over a decade of experience in international gaming and is one of the largest offshore wagering consortiums in the world. With over

150,000 satisfied clients, BetonSports.com continues to set new standards of customer care with a VIP Loyalty Club and unsurpassed 24 hour a day, 7 days a week, telephone and internet service. The group is fully and independently audited for client protection, and uses the latest technology to ensure complete customer satisfaction.

bodog.com
CASINO

**Reason #4 why the Wizard likes Bodog:**

**One-stop shopping**

**Bodog offers the triple crown of gambling: casino, poker, and sports.** Many other casinos have tacked on poker as an afterthought, and many poker rooms have tacked on a casino as an afterthought, and the lack of attention shows, sometimes painfully. And very few of

## Directory of Online Casinos

*Last update: August 4, 2006*

**The page features an index of all casinos that I know of according to their software provider.** This page is neither comprehensive nor 100% current because the casinos usually don't tell me when they start business, change software brands, or go out of business. Software providers are encouraged to send me up-to-date lists of their clients, along with the casinos' web addresses.

This index is NOT intended to be a comprehensive guide to poker sites, so please don't submit them. I do list a few but those are the only ones I care to list for now. For a complete liste of poker sites I recommend the poker index at Online Casino City.

The only casino I advertise is Bodog, because they have excellent customer service, they offer practice games that play right in your browser, and they don't make you register to play those games. I have more about them on my advertisers page. I also have a separate page covering blacklist of casinos I recommend against.

these sites let you make sports wagers.

**But Bodog doesn't just offer all three, they do each one well, and everything's integrated.** It's easy to play all three off one deposit, off just one account.

**Another nice thing about Bodog is that you don't need a separate account to play casino games with fake money.** In fact you do not even need an account for that at all, you can just click over there and play. Finally, Bodog usernames are only six or seven characters long making them possible to remember. By contrast some competitors' usernames are extremely long and cumbersome. **(Visit Bodog)**

**Try Bodog's blackjack game.**

# Words from our CEO President

## Fresh Start in 2005!

We have just finished the best NFL season in the history of IQ-L! This is the result of our new management team and a dedicated staff, who early on in the year, dedicated their efforts and thoughts into refining all the necessary components to have our engine running smoothly!

Our competitors' software suffered many "down times" at very critical times, therefore strengthening our presence in the market. We've surpassed history itself by having our software withstand high volumes of traffic by simultaneous multiple users all with little or no problems at all.

Now that we are in the New Year and we have our engines and transmissions running smoothly, it is time for us to launch our accessories lines.

The enhancements that we have developed have been addressed with the same care and testing that has been proven winner in our software products. We are very excited about initiating this immediately!

## Our Existing Customers

We would like to thank our existing customers for the loyalty, dedication, and personal efforts you have shared with us with your professional input we have accomplished a great deal together. We look forward to delivering our enhancements and new products to you during this year. We would like to ask you to share your recent experiences about the new management team and our improved products and services with colleagues and future IQ-L customers.

## Our Potential Customers

First of all, we want to tell you that we really want your business and we will work very hard for it. You will find myself (and all of my colleagues) committed, loyal, and trusting. Additionally, you will see that our products are user friendly and robust.

The company is made up of an extraordinary staff; we are the people you want to do business with! All I ask from you is for an opportunity for us to show you our commitment. If you provide us the chance to demonstrate to you our products and services, you will not regret it!

We are very proud of our existing customer base, ranging from billion dollar companies to small & medium size companies, located throughout the world.

We treat everyone equally, as we would like to be treated ourselves.
